learning**

 Defining American Home About Biographies More Q

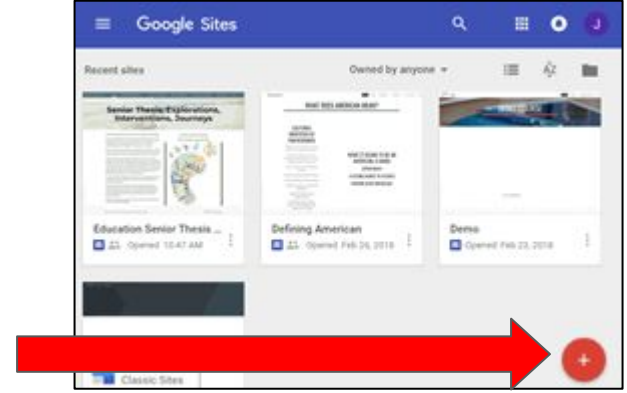

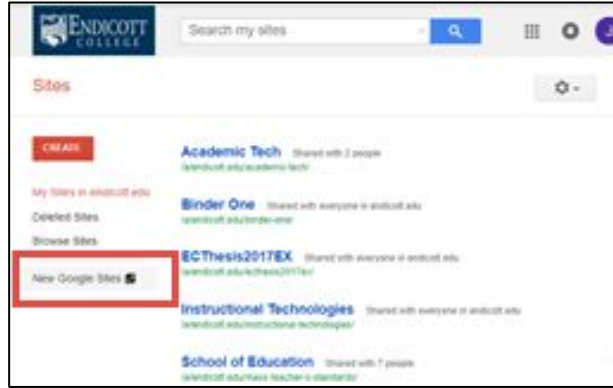

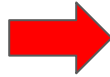

WHAT DOES AMERICAN MEAN?

Preparation - Sketch Site Map

Preparation: Technical

- Requires Chrome Browser
- Log into Endicott Google Platform
- Create shared folder for storing assets
- Access Sites

Lets Build - Step 1

1

Create your site

Let's begin by creating and naming your site.

In this section, you learn how to:

[1.1 Create your site](#)

[1.2 Name your site](#)

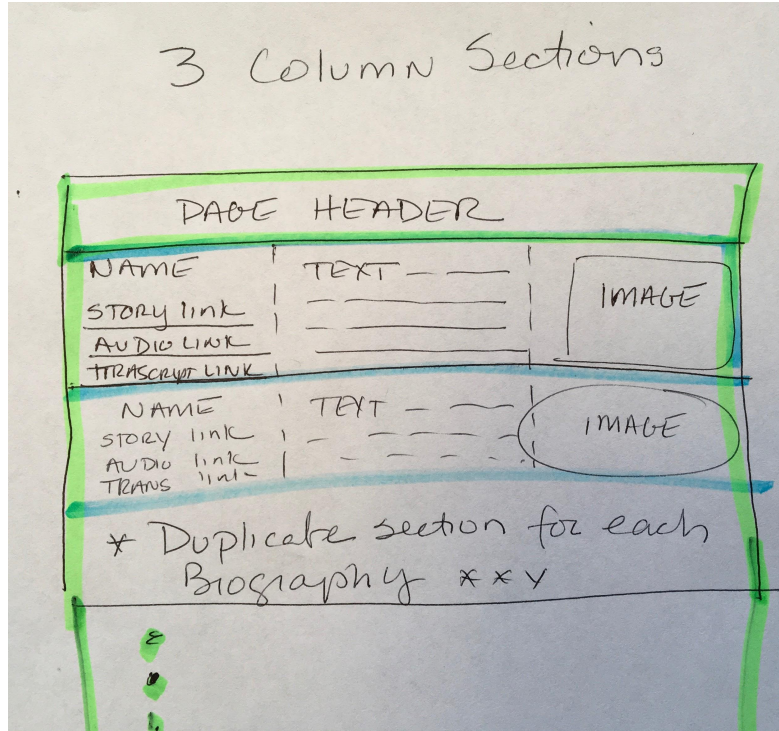

[1.3 Select a background image, header type, and theme](#)

[1.4 Add, reorder, and nest pages](#)

[1.5 Set up site navigation](#)

[G Suite Learning Center - Sites Step 1: Create your site](#)

Page Layout Design

Lets Build - Step 2

2

Update and personalize your site

Next, let's take a look at how to personalize your website with images and interactive content.

In this section, you learn how to:

- [2.1 Add content](#)
- [2.2 Edit text and pages](#)
- [2.3 Edit images](#)
- [2.4 Add content from another website](#)
- [2.5 Move and resize content](#)

[G Suite Learning Center - Sites Step 2: Update and Personalize](#)

Lets Build - Step 3

Share and collaborate

Now that you've customized your site, share it with people in your organization to collaborate on the content.

In this section, you learn how to:

[3.1 Share and collaborate on Sites](#)

[G Suite Learning Center - Sites Step 3: Share and Collaborate](#)

Lets Build - Step 4

4

Preview and publish your site

You can preview a new site before you publish. When you're ready, you can publish it only to your organization or to the world.

In this section, you learn how to:

[4.1 Preview your site](#)

[4.2 Publish your site for the first time](#)

[4.3 Change a site's URL](#)

[4.4 Unpublish your site](#)

[G Suite Learning Center - Sites Step 4: Preview and Publish](#)
